**Pre-Healthcare Support Courses Offered at OSU**

**UNIV 2511 Introduction to Health Careers** *(offered fall only)*

Description: 8-week course includes an overview and dialogue about all professional roles in healthcare. We include health profession guest speakers and activities to help you explore various options and validate your health profession interest. All levels of OSU students are welcome (Freshman-Senior if you are still exploring/deciding). Graded on pass-fail basis.

Credit hours: 1

**UNIV 2611 Health Portfolio & Self-Development** *(offered fall and spring)*

Description: 8-week course designed for all OSU students who are 100% confident of their healthcare pathway and are ready to learn and plan how to grow into a holistically competitive future applicant. The course includes individual and group activities along with mentorship to prepare academically and non-academically for all professional healthcare schools. All levels of OSU students are welcome (Freshman-Senior). Graded on pass-fail basis.

Credit hours: 1

**UNIV 3511 Health Profession School Preparation** *(offered spring only)*

Prerequisites: Highly recommended - Junior/Senior pre-health students

Description: 6-week course designed for all OSU students who are holistically prepared to apply for a masters or doctoral healthcare program within that year. The course includes individual and group mentorship in the application and interview process, professional exam preparation and other important resources to help support a successful professional application submission and interview. Recommended for OSU students who are applying to professional school within a year. Graded on pass-fail basis.

Credit hours: 1
