At OSU, the I and D requirements are waived with the Associates in Science Degree.

*Students scoring 26 or above on the math subsection of the ACT do not have to take MATH 1513 Algebra for STEM. Students scoring 28 or above on the math subsection of the ACT do not have to take MATH 1613 Plane Trigonometry. Students not taking Algebra & Trigonometry because of ACT scores or CLEP exam results are required to substitute 3-6 hours of credit in appropriate General Education Electives or RECOMMENDED PROGRAM ELECTIVES to complete 60 hours at NOC and maximize their transfer hours to the four-year institution.

** CMSC 1013 will substitute for the BSAD 1113 requirement at NOC.

Before transferring to OSU, have the NOC Registrar send an official transcript to the OSU Admissions Office with any degrees earned noted on the transcript. If you have not completed the requirements for an associate degree, talk with your OSU Academic Advisor about Reverse Transfer options to use OSU coursework to complete your NOC associate degree.

*****Transfer students will benefit significantly by taking ENSC 3233 (online) in the summer prior to their first fall semester at OSU.**

This plan is only one example of how a student may successfully complete degree requirements in four years. Students are responsible for completing the requirements as given in the official degree requirements sheet.

The NOC substitutions and equivalencies also apply to the Environmental option under Civil Engineering.
